

Society for Freshwater Science

Pacific Northwest Chapter Annual Meeting 2022

When: October 19th-21st, 2022

Where: Caldwell, Idaho at The College of Idaho

Campus In-person & Virtual

You are invited to submit an abstract for an individual presentation or roundtable discussion during our 2022 meeting. We are also very interested in identifying session facilitators! Presentations should inform our understanding and management of aquatic ecosystems in the Pacific Northwest. We are interested in facilitating a wide range of topics including some of the following:

-  Ecology, Taxonomy, & Monitoring Programs
-  Urban Waters: impacts, condition, and restoration
-  The hyporheos and role in stream ecology
-  Freshwater Mussel ecology, assessment & taxonomy
-  Climate Change and management of environmental resources
-  Snake River Science
-  Boise River Science

- 📄 Indexes and Models for assessment of biological communities
- 📄 Restoration projects and the effectiveness
- 📄 Environmental Science Programs by Northwest Tribes

Please send abstracts (<500 words) to Jessie Doyle at jschnoyle@gmail.com no later than September 2nd, 2022. We hope to select and notify authors by September 30th, 2022.

Please contact Rob Plotnikoff (President; Robert.Plotnikoff@co.snohomish.wa.us), Celeste “Zee” Searles Mazzacano (President-Elect; casmenvironmental@gmail.com), or Jessie Doyle (Secretary/Treasurer; jschnoyle@gmail.com) if you have any questions or need additional information.
